

ChEAS 2002 Workshop
Kemp Natural Resources Station
August 16-21, 2002

WORKSHOP EVALUATION

Please take a few moments to give us your thoughts about this workshop:

What did you find most valuable and useful to you?

What improvements do you suggest to workshop content (lecture, field trips, discussions, topic summaries), location, accommodations, and logistics?

What new opportunities did you find for collaboration with other scientists on current research projects, future project proposals, or papers?

Would you come again next year?

Please leave your thoughts with us now or email them to dyoder@meteo.psu.edu.

And THANK YOU for coming.
